# DCR's Data Visualization Portal

More data. More sites. More patients. More expertise.

Our Population Summary can be viewed online and is meant to help you:

- Understand the size of the end stage renal disease (ESRD) market and visualize trends by region, age, and gender
- Identify dialysis treatment modality by region, age, and gender
- See the incidence of comorbidities, such as coronary artery disease, congestive heart failure, depression, and many others
- Identify medication usage, including erythropoietin-stimulating agents (ESAs), IV iron, and phosphate binders

Our Phosphate Binder Data is available for purchase and is meant to help you:

- Quantify the size of the market and current trends for marketed products
- Understand the average time on each medication
- Visualize switching between one product and another
- See the correlation between lab values and medication use

Learn more about the details of our de-identified electronic medical record (EMR) dialysis datasets. DCR's Data Visualization Portal can give you access to view a captivating, interactive data summary of ESRD population.
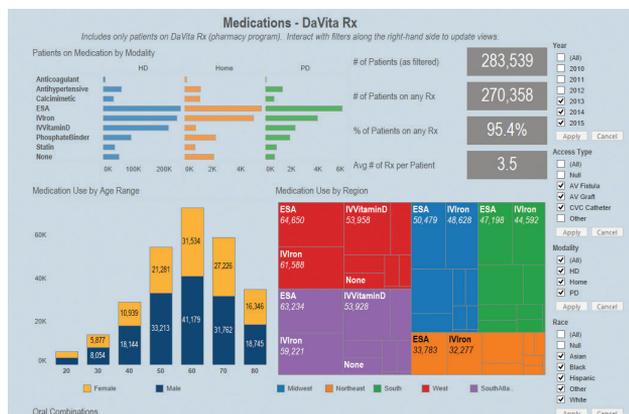

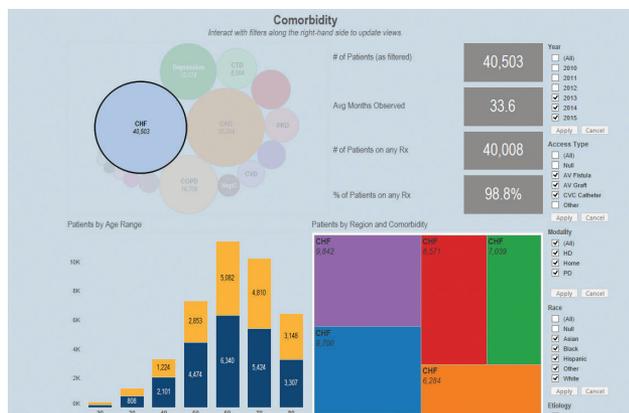

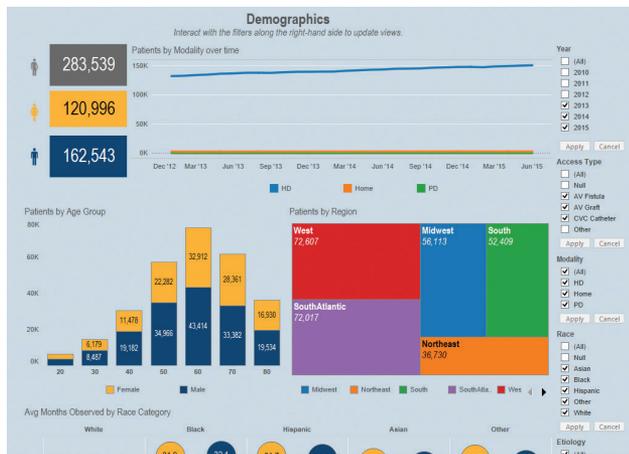

Interested in custom reports?
We can do that, too. Visit the Data Portal Preview at **DaVitaClinicalResearch.com** (under the Real-World Healthcare Data tab) or call us at **1-888-345-2567**.

DaVita Clinical Research

Complimentary access to real-world data

Data to suit many of your needs

Whether you need data to size a market, conduct trial sensitivity/feasibility in specific populations of interest, or monitor medication or treatment patterns, DaVita Clinical Research (DCR) may have the information you need.

Data sets include:
- Demographics
- Medications – DaVita Rx
- Medications – In-Center
- Comorbidity
- Lab Results Summary
- Access Type
- Mineral and Bone Disease
- Dialyzers

Binder data includes:
- Medication Use
- Time on Medication
- Formulation Use
- Prescription Switching Metrics – Origin
- Prescription Switching Metrics – Destination
- Lab Results Summary
- Anemia Management
- Raw Data Charts

If our population summary has piqued your interest, visit our Data Portal Preview at **DaVitaClinicalResearch.com** (under the Real-World Healthcare Data tab), or if you already know what you need, contact us at **1-888-345-2567** to get the conversation started.
