Become a Network PI

What is our Network?

DCR has developed a decentralized network of research sites to address the ongoing need for patients in rare disease trials.

For physicians and patients alike, contributing to CKD & Rare Disease research has its benefits. As a network site PI, you'll gain unparalleled access to treatments while shaping the future of medicine. Learn more about this important role, as well as DCR's data driven process.

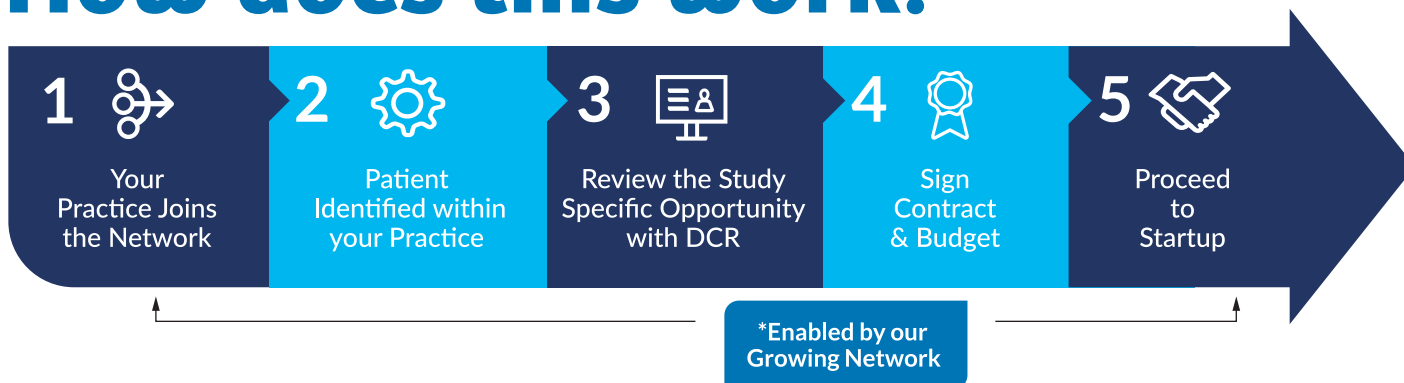

Could this be you?

- On Epic CKD – EHR
- Relevant research expertise or willingness to commit time and resources to gain expertise
- Vested in expanding treatment options for CKD & Rare Disease patients
- Several practice members have interest
- Willingness to integrate research patient visits into practice workflow

**888-345-2567**www.DavitaClinicalResearch.com

How does this work?

Benefits of a Network Site PI:

- Provide new therapeutic options for patients
- Generate additional revenue
- Stay on the cutting edge
- Find fulfillment in contributing to the future of medicine

**Join our
CKD &
Rare
Disease
Network**

Why do Patients Participate in Research?

Additional provider touchpoints

Access to novel therapies and providers

Fulfillment in contributing to the future of medicine

Streamlined and eliminate extra visits

Compensation for participation
